Sustainable Planning and Management for Cities

WHERE

Curitiba, BRAZIL

WHEN

Jan/26 – Feb/04

TUITION

R\$ 3100.00

TUITION + ACCOMODATION

R\$ 5000.00

Face urban concentration of people, resources consumption and production, besides socioeconomic and sociospatial inequalities, urges the need of knowledge development to ground sustainable decision making in cities policies, planning and management. This course proposes the development of case studies by analyzing contemporary urban ventures from the lens of sustainability. Critical analysis allows the design of disruptive solutions integrating policy, planning and management guidelines towards UN SDG's.
