Polytechnic School

GAME DEVELOPMENT BOOTCAMP: Global Game Jam Curitiba

WHERE

Curitiba, BRAZIL

WHEN

Jan/25 – Feb/03

TUITION

R\$ 699.00

This hands-on immersion is aimed at undergraduate students interested in developing or improving hard and soft skills in Game Development – being supervised by professors, mentors, and monitors. This program is also offered to those who have already participated in jams but want to validate their jam as a discipline with a PUCPR certificate and constant monitoring and mentoring by our professors. During the course, the student connects with other developers (local, national, and international) and actively and prominently participates in the international event Global Game Jam Curitiba 2022 (whose primary concentration is from January 28 to 30), one of the biggest game jams worldwide, which annually receives hundreds of developers. At the end of the event, a new game will be developed and published.
